

States government's exclusive and complete determination of the procedural and other actions to be taken by Federal agencies to further the purpose of the National Environmental Policy Act, with respect to the environment outside the United States, its territories and possessions."

(b) When implementing EO 12114, bureaus shall coordinate with the Department. The Department shall then consult with the Department of State, which shall coordinate all communications by the Department with foreign governments concerning environmental agreements and other arrangements in implementing EO 12114.

### Subpart C—Initiating the NEPA Process

#### § 46.200 Applying NEPA early.

(a) For any potentially major proposed Federal action (40 CFR 1508.23 and 1508.18) that may have potentially significant environmental impacts, bureaus must coordinate, as early as feasible, with:

(1) Any other bureaus or Federal agencies, State, local, and tribal governments having jurisdiction by law or special expertise; and

(2) Appropriate Federal, State, local, and tribal governments authorized to develop and enforce environmental standards or to manage and protect natural resources or other aspects of the human environment.

(b) Bureaus must solicit the participation of all those persons or organizations that may be interested or affected as early as possible, such as at the time an application is received or when the bureau initiates the NEPA process for a proposed action.

(c) Bureaus should provide, where practicable, any appropriate community-based training to reduce costs, prevent delays, and facilitate and promote efficiency in the NEPA process.

(d) Bureaus should inform private or non-Federal applicants, to the extent feasible, of:

(1) Any appropriate environmental information that the applicants must include in their applications; and

(2) Any consultation with other Federal agencies, or State, local, or tribal governments that the applicant must

accomplish before or during the application process.

(e) Bureaus must inform applicants as soon as practicable of any responsibility they will bear for funding environmental analyses associated with their proposals.

#### § 46.205 Actions categorically excluded from further NEPA review.

Categorical Exclusion means a category or kind of action that has no significant individual or cumulative effect on the quality of the human environment. See 40 CFR 1508.4.

(a) Except as provided in paragraph (c) of this section, if an action is covered by a Departmental categorical exclusion, the bureau is not required to prepare an environmental assessment (see subpart D of this part) or an environmental impact statement (see subpart E of this part). If a proposed action does not meet the criteria for any of the listed Departmental categorical exclusions or any of the individual bureau categorical exclusions, then the proposed action must be analyzed in an environmental assessment or environmental impact statement.

(b) The actions listed in section 46.210 are categorically excluded, Department-wide, from preparation of environmental assessments or environmental impact statements.

(c) The CEQ Regulations at 40 CFR 1508.4 require agency procedures to provide for extraordinary circumstances in which a normally excluded action may have a significant environmental effect and require additional analysis and action. Section 46.215 lists the extraordinary circumstances under which actions otherwise covered by a categorical exclusion require analyses under NEPA.

(1) Any action that is normally categorically excluded must be evaluated to determine whether it meets any of the extraordinary circumstances in section 46.215; if it does, further analysis and environmental documents must be prepared for the action.

(2) Bureaus must work within existing administrative frameworks, including any existing programmatic agreements, when deciding how to apply any of the section 46.215 extraordinary circumstances.
